POWER ON

Plug in the adapter and power cord, and connect the TYPE-C to 5V DC, to kick off its working mode.

TIME SETTING

1 Time Setting

Press and hold [] to set the time. When the "Hour" blinks, press [+] or [-] to adjust the hour. Then press [] and the "Minute" will blink, press [+] or [-] to adjust the minute and press [] to confirm.

Note:

1. Press and hold [+] or [-] for quick time setting.
2. No operation for more than 10 seconds will automatically confirm the current setting and back to the time display.

2 12/24 Hour Time Format Switching

In normal time mode, press [] to convert the 12/24 hour time format.

Note:

For the 12-hour time format, AM/PM is displayed on the left.

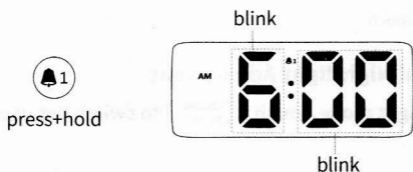

For the 24-hour time format, AM/PM will not be displayed.

ALARM SETTING

1 Alarm 1 /2 Setting

Press and hold [🔔1] until "🔔1" and "Hour" blink, then press [+] or [-] to adjust the hour. Next, press [🔔1] and "Minute" will blink, then press [+] or [-] to adjust the minute and press [🔔1] to confirm.

The Alarm 2 setting is the same as Alarm 1.

Note:

1. Press and hold [+] or [-] for quick alarm setting.
2. No operation for more than 10 seconds will automatically confirm the alarm setting and back to the time display.

2 Alarm Volume Adjustment

Toggle the alarm volume button to switch the volume from L01(low)- L02(medium)- L03(high). Please note that adjusting the volume while the alarm is sounding will turn off the alarm.

3 Nightlight On When Alarm Goes Off

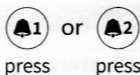

When the alarm goes off, the corresponding alarm icon "🔔1" / "🔔2" will blink, the nightlight turns on automatically (even when the nightlight is off), and then turns off when the alarm sound stops.

4 Turn On/Off Alarm

Press [🔔1] or [🔔2] to turn on or off the corresponding alarm clock.

ON: [🔔1] or [🔔2] icon will be displayed on the screen.

OFF: [🔔1] or [🔔2] icon will disappear from the screen.

5 Turn Off The Sounding Alarm

When the alarm goes off, press any button except [Snooze/Nightlight] and 2 touch buttons on the top to stop the alarm. Such operation will not turn off the alarm set for the next day.

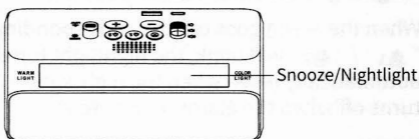

SNOOZE FUNCTION (Snooze Duration: 9 Minutes)

1 Turn On/Off Snooze Function

ON: When the alarm goes off, press [Snooze/Nightlight] to stop the alarm and start the snooze function, during which the "zzz" icon will blink. The alarm will ring again 9 minutes later and repeat 3 times if without operation.

When the alarm goes off and lasts for 3 minutes without any operation, it will enter into snooze mode automatically, and the snooze icon "zzz" will blink.

OFF: When in snooze mode, press any button except [Snooze/Nightlight] and 2 touch buttons on the top to turn off snooze mode with the snooze icon "zzz" disappearing on the interface. Such operation will not turn off the alarm set for the next day.

blink

SCREEN BRIGHTNESS ADJUSTMENT

1 Screen Brightness Adjustment

In any mode, push the brightness slider on the back to continuously adjust the screen brightness from 0% to 100%.

NIGHTLIGHT SETTING

1 Turn On/Off The Nightlight

In normal time mode, press [Snooze/Nightlight] to turn on or off the nightlight.

Note:

When turned on for the first time, the default light is a white color with middle brightness.

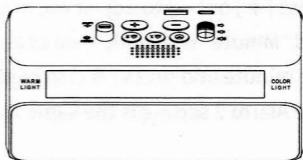

When turned on next time, the light will feature the color and brightness set last time.

2 Warm Nightlight Adjustment

In nightlight mode, touch [**WARM LIGHT**] to switch the warm nightlight brightness from high-medium-low.

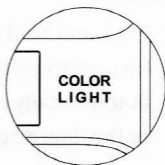

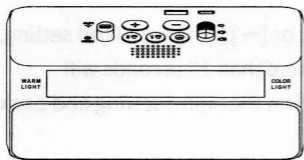

touch

3 Colorful Nightlight Adjustment
